Report on Outreach Programme

Department of Hindi has organized a visit to **Sankeshvar Mission Hospital Trust's Silverdale Eventide Home**, an Old Age Home at Sankeshvar on 03rd February, 2021

The purpose of the visit was to make our students aware of the life and status of old people residing there, to know their socio economic conditions, environment and working modality of old age homes. Our students and the staff were introduced to 34 inmates, listened to them about the daily routine, about the feeling of being away from home or being dejected by their family members. Ms. Miriam Keyse, Manager, explained about the individual care provided, medical checkup conducted every month, 24x7 Ambulance facility available for the inmates.

Twelve students and a staff of our college cleaned the premises and offered fruits and sweets as a token of love and care. Students were of the opinion that we should respect old people, look after the parents with love and care and not to send them to Old Age Homes.

Subject :- Survey on old age people

Students from the KLE's Bagewadi degree college (Maheshchandra dhangre, Pavan bilage, Soumya magdum, Srushti halgadgi, Rukmini talawar) had visited our Ashram on behalf of their survey in order to know about ashram and the people live here. The department of Zoology organized a Extension Activity on 12.09.2019 for B.Sc V Sem students to Stavanidhi Ghat on the topic "Study of Regulation of Plastics, Plantation of Trees And Land Sliding". 19 students were involved in this activity. They observed that landslide and soil erosion in that area indicates that movement of a mass of rock, debris or earth down which denotes any down slope movement of soil and rock under the direct influence of gravity. Students learnt how trees promote physical & mental health for urban residents and also improves soil and water conservation, store carbon, moderate local climate by providing shade, regulate temperature extremes etc.

Effect of Scale Insects of GIB College Campus Report

Date-04.04.2018

The department of Zoology organized a Extension Activity on 04.04.2018 for B.Sc IV Sem students to Devachand College Arjun Nagar, Nipani on the topic "Effect of scale insects of GIB College Campus". The common scale insects of GIB College are mealybugs , aphids and whiteflies. Scale insects are immobile pests and permanently attached to the plants they have parasitized. They secrete a waxy coating for defense, this coating causes them to resemble reptilian scales or fish scales hence, their common name is Scale insects... Scale insect produce a protective covering that hides the body. Some scale insects rarely or never produce males. If they do the males are much smaller than the females. Students learnt some scale insects are beneficial for plants and some are harmful to the crops.
